PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with expertise in React.js, JavaScript, and Spring Boot, building scalable and high-performance web applications. Experienced in REST API integration, MySQL, and developing responsive, user-centric interfaces. Strong foundation in Data Structures & Algorithms with solid problem-solving skills. Proficient in writing clean, maintainable code and optimizing application performance. Hands-on experience delivering real-world projects with modern development practices. Quick learner with strong adaptability and a passion for continuous improvement in software development and emerging technologies.

TECHNICAL SKILLS

Frontend: ReactJS, JavaScript (ES6+), HTML5, CSS3, Bootstrap Data Structures & Algorithms (Basics), Problem Solving, Component-Based Architecture, State Management, Responsive Design, API Integration

Backend: Java, Spring Boot, Microservices

Database: MySQL, Hibernate (JPA)

Tools: Git, GitHub, Postman, Swagger, Docker

Deployment: Vercel, AWS

Basic understanding of CI/CD and cloud deployment concepts

PROJECTS

Finance Management System (React)

- Developed a full-stack Finance Management System with real-time income and expense tracking.
 - Implemented **advanced features including** CRUD operations with LocalStorage persistence, Smart search, filtering, sorting system and Role-based UI (Admin / Viewer simulation)
 - Designed interactive data visualizations including Monthly Income vs Expense (Line Chart) and Category-wise Expense Distribution (Pie Chart)
 - Added **CSV export functionality** for transaction data
 - Developed an insight engine for savings calculation, overspending detection, and highest expense category analysis
 - Focused on **clean UI, reusable components, and performance optimization**
 - Live: <https://finance-khushi.vercel.app> | GitHub: <https://github.com/khushi-66/finance-management-system>
Demo Link : https://youtu.be/HC_IWV7HnTg
- Simulates real-world financial tracking system with practical user scenarios . Enhanced user experience by implementing responsive UI and optimized data handling.

Digital Mental Health App

- Developed a web-based mental health support system using Java, JSP, Servlets, and MySQL
 - Implemented MVC architecture for scalable and maintainable backend structure
 - Designed and integrated CRUD-based modules for user interaction and data handling
- Strong interest in problem solving and continuously improving DSA skills.

EDUCATION

B.Tech Computer Science Engineering (2023–2027)

Global Nature Care Sangathan Group, Jabalpur

12th MP Board – 96.4% (INSPIRE Scholarship)

10th MP Board – 95.4%

CERTIFICATIONS

- Cyber Security Internship – Palo Alto
- C++ – Cisco
- SQL – HackerRank
- GitHub – Microsoft

ADDITIONAL SKILLS

Problem Solving • Debugging • Clean Code • Team Collaboration • Adaptability
